RE: Product Deletion

Strain on supply chain continues to hamper our ability to fill orders on specific sku's. For this reason, we find it necessary to continuously visit sku rationalization across multiple categories of products.

Effective immediately, SKU's **#6526 4-piece Country Krisp®** and **#6527 3-piece Country Krisp® Bone-In Dinners** will no longer be produced and/or available.

All available raw material will now instead flow into the production of our remaining Bone-in products **#6548 Country Krisp® 8-piece bulk pack**, and **#6108 4-Piece Honey Touched Bone-In Dinners**.

We hope this product consolidation helps us serve you at a higher level.

Thank you for your continued support.
